

## Program of Study: Emergency Management Certificate—Health Care

---

### Certificate Description:

The primary purpose of the Emergency Management Certificate—Health Care is to serve the needs of workers in the health care industry by addressing key aspects of natural and human-caused disasters. Recipients of the Certificate will possess a knowledge and experience-based approach to strategic planning for disaster prevention, reduction, response, and recovery. Interested candidates for the certificate program include those working in the Health Care field and who have completed programs in emergency medical response, nursing, or other related fields under the general umbrella of Health Care and Health Care administration. While a Bachelors degree or higher is required to receive transcript credit, the certificate program is open to all others as well.
